11 **STORY**

12 BY: HH LORD KESHE

15 HH LORD KESHE speaks words of peace and great wisdom! : The people in Belgium, what
16 we call the "Red Circle" people -- they're [voice unclear] about 25 people -- **they start**
17 **threatening people**, anybody who put anything on the internet, that it could show the technology
18 works or they start supporting it, that there is nothing there to discredit the technology. **It's the**
19 **same thing, the same person in Belgium who spent 10 years with us.** We don't
20 fight. What we done: we show you the unit which is made. They can't access, they don't know
21 who it is. Let me show you the video. This technology is 100% correct. **The people who make**
22 **threats against Keshe foundation supporters and the teachers, or people trying to teach, we're**
23 **gonna release your names, your telephone numbers, your pictures, your home address, the**
24 **name of your children on the internet.** Who calls people who are developing a peaceful
25 technology to threaten them, we leave you the world to decide.

26
27 **You will not be able to go out of your house to shop. You're in Germany; we have the size of**
28 **your shoes. You're in Austria, you make threats against Keshe foundation teachers, we put you**
29 **on the front magazines of Austria. You are internet terrorist,** and it is no [voice unclear].
30 You thought you can hide on the hidden names...

31 Sandor, can we tell them that we're gonna release it? Are you online? **We have all your details.**
32 You threaten us, we don't fight you. We let yourself to be ... pray [?] even to go out of your
33 house when you make a threat. **We don't send you people the way you make threats do.**

34 **We don't call children on the mobile to threaten the way you did with Alekz's child. Now we**
35 **publish your pictures.** Not on the Keshe foundation internet, on the world wide web
36 internet. When you get it, please replicate it and send it to the police station the area they live.
37 Internal police knows who they are, where they live. **We have all your details. You thought you**
could use proxies, servers to hide ... we even show your proxy servers. I was told we can
discreet cover your faces that you cannot be seen. If you hurt, or you go to sabotage teaching
and people to be free of all the pains of lack of energy, for you to serve your purpose for your

38 leaders, we put you across the internet.

39
40 We publish your pictures, with your name, your address, your children. You threatened Keshe
41 foundation supporter's children and get people silenced like Peter [Salocher] in Austria, we put
42 your family, your grandfather, your grandmother, the whole family on the internet. We're not
43 hurting you, **we're just exposing you as the new terrorist**.

44
45 Terrorists don't bomb Paris, you terrorists threaten people. Now, those who made the threats to
46 people, those who made the threat to Alekz, watch your name and your pictures go to the police,
47 go on the internet, the whole of your country will know who you are. You make threats, now
48 you have to be scared. We put your pictures on billboards in shopping centers. **And we put**
49 **your voices -- you've been recorded -- your voices when you made the threats will be released,**
50 **so that we're not lying.**

51
52 So, we **push for the peace through correct conduct**. You try to fighten [?] us, you try
53 to scare us, **you bombed us, you shot us**, we don't retaliate the way you've done, the
54 animal way. We let you and your soul to judge you, and you'll find your judgment in your own
55 living home. We put the billboard of your name on the front of your house, in front of your
56 community, that you cannot leave. **You're another pedophile.**

57
58 But this time you intrude in the privacy of the scientist we don't stand to scared to run.

59
60 So, those who made the threats to Alekz, those who made the threats to Peter [Salocher] and the
61 other people who put the perfect conduct of the technology to be producing energy, try to
62 discredit us, the way you did in Belgium for 10 years, making files [voice unclear], now we put
63 your name, your telephone number, your lovers, everything.

64 You got into our internet, **we got into your computer (!)**. So, you thought you're very
65 clever, be careful when your picture appears all over the internet **within next 7 days!** And we
66 catch [?] you all, being the man in the "Red Circle", being the woman in somewhere else ...

67 **we have 25 names.**

68
69 They work together, they operate together, and now, they go all together partying on the
70 internet.

71
72 So, from now on, if you think you can make threats and carry on with the same thing being the
73 terrorist in Paris, but on the internet, **now you have to understand the way they were hunting the**
74 **terrorists in Brussels last week**. They closed the whole city down, now we close the whole
75 internet on you. **Have your meetings in the back toilets, where you usually operate, that's where**
76 **you deserve.**

80
81 -----

82
83 [Peter Salocher] **has received a threat by people who is orchestrated by "Red Circle" in Antwerp**
84 **and the people in Germany. The recording of the threat we've been told has been made. But we**
85 **will release the picture of the guy who has made the threat. Everybody can know him. It won't**
86 **be on our website, so we can not be damaged. But once it's released, please spread across the**
87 **internet ... that everybody knows.**

88
89 **Let me explain to you something. This is the beauty of working this way.** [..... Gaddafi].

90 When they sit behind these computers and they think they can make threats, they don't know
91 **they made themselves a target.** We don't pull a knife. We show your face.

92
93 You'll pull the knife on yourself to shut your computers down. It's your children and your wife
94 and family will batter you to bits. They'll know the real face of you, not the kind father **but a**
95 **terrorist on the internet.** So, we don't rely on anybody to be killed, but we show your
96 hand, who you are. We send the emails to your employees, whoever employs you, or who you
97 ever employ, they'll know the real face of you.

98
99 We make life so "beautiful" for you that you decide to change. We release the name of the
100 family of the "Red Circle" on the internet. Where they live, who they are, do they know what
101 their father is up to. And, to where the children work. That they understand this has to
102 stop. They thought they can go and hijack the Keshe foundation websites, and write whatever
103 they like. We let everybody know how they think. Because what they written can not be [voice
104 unclear]. We let their children know, we let their family know, we let the grandchildren know,
105 we let the school of the grandchildren to know.

106
107 We have enough connections, good people that we kill animosity from the root.
108 Those who in Germany, Austria, put servers across another nations, we leave to your every flat,
109 house you live, with your telephone numbers, where you work. You thought you have the
110 power to make a threat against a nine year old child in England. No problem. Now you have to
111 tell your nine year old child or grandchild: I'm such a devious man. How you're gonna justify it?
112 The suggestion is, we put a billboard everywhere: Wanted! We don't want you. You want
113 yourself not to be on the net. When we publish these on the free internet, please use it, and send
114 it to every child and their family around them, they know. **We expose pedophiles, we**
115 **have to expose internet terrorists.**

116 I wonder if in Antwerp they would like to have such a terrorist in their tower [?]. So, we open
117 ... we don't do it, it's the job of you Belgiums to do it to the ones who have done to us.

118
119 The ones in Kortrijk, sitting at the office of the police officer. And we do not finance anything,
120 we don't waste time. We just expose, it's your job. The ones in Germany. We have all your fake
121 names and real names, your telephone numbers and where you work, and the name of your
122 wife, your mistresses, everything. You broke into our system, you thought, we break in yours
123 in a deeper way. We let you judge yourself. We don't judge you, we just expose you.[...] So,
124 those on the internet, who've been threatening people like Peter [Salocher], did it with Alexz's
125 daughter, we now release your name, your telephone numbers, your pictures, **and as you find it,**
126 **more about them, put more on the internet.**

127
128 We make life so "beautiful" for them, that they will not make any more bad comments, but they
129 make their bad comments about themselves. If you see the name of the German guy, or couple
130 of German guys, and you see the Austrian guy, and you know the face, put more detail who
131 they are. Who they work with, who is their lover, who is their mistress who nobody knows,
132 let's look at their faces. Let's them judge themselves.

133
134 **And we put it very simple: we call them internet terrorists.** But they are terrorists
135 against themselves, not us.

136
137 **So, in the coming days, we will release the names, and the pictures, and the**
138 **telephone numbers, and the home addresses, and then you add into the profile.**
