Mehran,

This youtube video (in French) is about Laurent Louis (independent parliament member) which opens the files about PM Elio di Rupo about sex with minors (with file-numbers of police reports when they found Di Rupo almost naked in a car with two minors) . He describes a pedophile network in Belgium.

Now the Parliament tries to kick out Laurent Louis, by asking voting to lift his immunity. He is ridiculized by press, co-members, ... and treated like a paria. He can not get new bank account, no loan, etc.
